Housing at Dawson

New & exciting housing developments in Dawson

In July 2008, WOHA Architects and SCDA Architects were appointed to develop detailed housing designs on two vacant sites in Dawson Estate. These two housing projects have since been successfully launched and are currently under construction. The expected completion date for these two projects will be around 2015.

Surbana International Consultants will be appointed later when the existing blocks on their site are cleared in 2011.
