

# Remaking Our Heartland Choa Chu Kang

The Remaking Our Heartland (ROH) programme was launched in 2007 as a blueprint to rejuvenate HDB towns and estates and transform the heartlands into distinctive and endearing homes for residents.

Since then, nine towns and estates have benefited from the programme – Punggol, Dawson and Yishun in 2007, East Coast, Hougang and Jurong Lake areas in 2011, and Toa Payoh, Pasir Ris and Woodlands in 2015. Ang Mo Kio, Bukit Merah, Choa Chu Kang and Queenstown are the latest four towns to be identified for renewal.

Choa Chu Kang's first neighbourhood was completed in 1977 at Teck Whye Avenue. With the development of the new town of Choa Chu Kang in the 1990s, more neighbourhoods were added, including Keat Hong and Yew Tee. Over the years, HDB has carried out various upgrading programmes to enhance the living environment for residents.

Come discover the exciting plans to transform Choa Chu Kang into an endearing home for all ages!

As Singapore is a city-state with limited land, forward planning is important to ensure that Singapore remains liveable and sustainable. HDB is working closely with the Urban Redevelopment Authority (URA) on the Draft Master Plan 2025 (DMP25), to translate housing strategies developed with Singaporeans in the Long-Term Plan into detailed plans for our future housing estates.

As part of the DMP25's focus to Shape a Happy Healthy City, we aspire to provide a range of housing options to meet the evolving needs of Singaporeans, as well as create vibrant towns and communities.

**We hope to co-develop DMP25 with you to make Singapore an even more liveable, inclusive and endearing home for everyone!**

## Our Co-creation Journey

In drawing up the rejuvenation plans for Choa Chu Kang, HDB actively engaged residents and other stakeholders to seek their views.

About 480 participants shared their ideas for Choa Chu Kang's rejuvenation over three rounds of engagement sessions held between 2020 and 2022. We will take them into consideration where possible as we design and implement the plans for the town.

Residents can also look forward to more opportunities to co-create vibrant spaces within selected areas in the town.
