

Preserving Memories

Weave The Past Into The Future

Information from the collected heritage items will be woven into new developments (where appropriate). This will bring back fond memories for the older generation and educate the younger ones on Dawson's past.

Newly Completed Project

A collaborative effort among Housing & Development Board, National Heritage Board and National Parks Board, the storyboards were completed in mid Nov 2010. Located along the stretch of Alexandra Canal Linear Park, these storyboards celebrate Dawson's rich history.
