

# SkyTerrace @ Dawson

Green canopies formed by sky terraces and multi-layered greeneries in SkyTerrace @ Dawson creates a modern profile and commanding presence in the Dawson area.

Cascading terrace gardens and sky terraces serve as garden retreats and convenient gathering areas for the residents.

Residents can enjoy a unique heritage gallery when they stroll through passages decorated with displays of Dawson's rich history.

The pilot Multi-Generation Living Scheme at SkyTerrace @ Dawson allows parents and married children to buy paired units next to each other. Designed as two separate units, they have interconnecting doors to allow families to stay close yet maintain privacy.

One such combination is the pairing of Studio Apartment with loft unit.
