

Completed Improvement Works

2006 - 2010

Completed Barrier-Free Accessibility Scheme

The creation of barrier-free accessibility in the housing estates managed by East Cost Town Council has been fully completed. Together with the upgraded lifts, residents of all ages, including those with special needs will enjoy seamless accessibility from their homes to neighbourhood shops and other social and recreational facilities.

Barrier-free access from block to roadside footpath and car park

Barrier-free access at Bedok Town Centre

Seamless path from block to bus stop

All access to town facilities

Convenient path from block to roadside path

Our Green Plan

- Install Energy Saving Devices (ESDs)
- Replace sodium/mercury lamps with energy-saving lamps
- Replace compact fluorescent lamp with T5 lamps

Do our part to make our pleasant environment by reducing the amount of the trash that we throw.

Door-to-door collection

Under the NEA's National Recycling Programme, residents can deposit items for recycling in provided bags. The bags are collected from their door-step on a fixed schedule.

Community Recycling

The Recycling Exchange Initiative allows residents to exchange their recyclables at their RC Centres for food items like rice, noodles, or sardines. Please contact your RC for more details.

Recycling Depositories

Currently, there are 47 recycling stations in our Town. The depositories are clearly marked as "Papers", "Bottles" and "Cans" to facilitate the recycling effort.

Clean & Green Week Activities

This annual event which includes tree planting, has been expanded to include children from neighbouring schools to educate them in developing and appreciating a sustainable environment.

Energy Saving Projects

Energy saving projects undertaken include the T5 lights, energy saving devices & LED signboards have been completed with positive results.

Added Security

Life Surveillance Scheme
Closed-circuit television (CCTV) cameras have been installed in all the lifts in the Town to enhance safety and prevent acts of vandalism.

The Town Council will continue to work on enhancing the safety and security of our residents.

Notification in Lift
This lift is under closed-circuit TV surveillance
