

VERANDAH
@ Kallang

**HDB'S SALES LAUNCH
OCTOBER 2023**

BTOgether

Artist's impression

VERANDAH @ KALLANG

Verandah @ Kallang is bounded by Geylang Road, Sims Way, Kallang Airport Way, and Kallang Airport Drive. The project comprises 5 residential blocks ranging from 27 to 29 storeys. Residents can choose from 1,143 units of 2-room Flexi, 3-, and 4-room flats. Verandah @ Kallang is offered under the Prime Location Public Housing (PLH) model. Find out more about PLH at <https://www.hdb.gov.sg/cs/infoweb/residential/buying-a-flat/finding-a-flat/plh>.

Artist's Impression

Residents will enjoy conveniences right at their doorstep with the project's 2-storey commercial block, which would provide amenities such as an eating house, shops, a minimart, a residents' network centre, and a preschool. The name 'Verandah @ Kallang' describes the covered walkway along the 2-storey commercial block which reflects the streetscape of the shophouses along Geylang Road. The covered walkway further extends into the project's void decks, providing connectivity to all the nodes and amenities for the residents.

Recreational facilities at Verandah @ Kallang include fitness corners for adults and the elderly, children's playgrounds, a hardcourt, and roof gardens above the commercial block and Multi-Storey Car Park (MSCP). Drawing inspiration from the amusement park which used to occupy the site, the playground's design will reflect elements of circus and magic show performances. Please refer to the site plan for the facilities provided in this project. Facilities in Verandah @ Kallang will be accessible by the public.

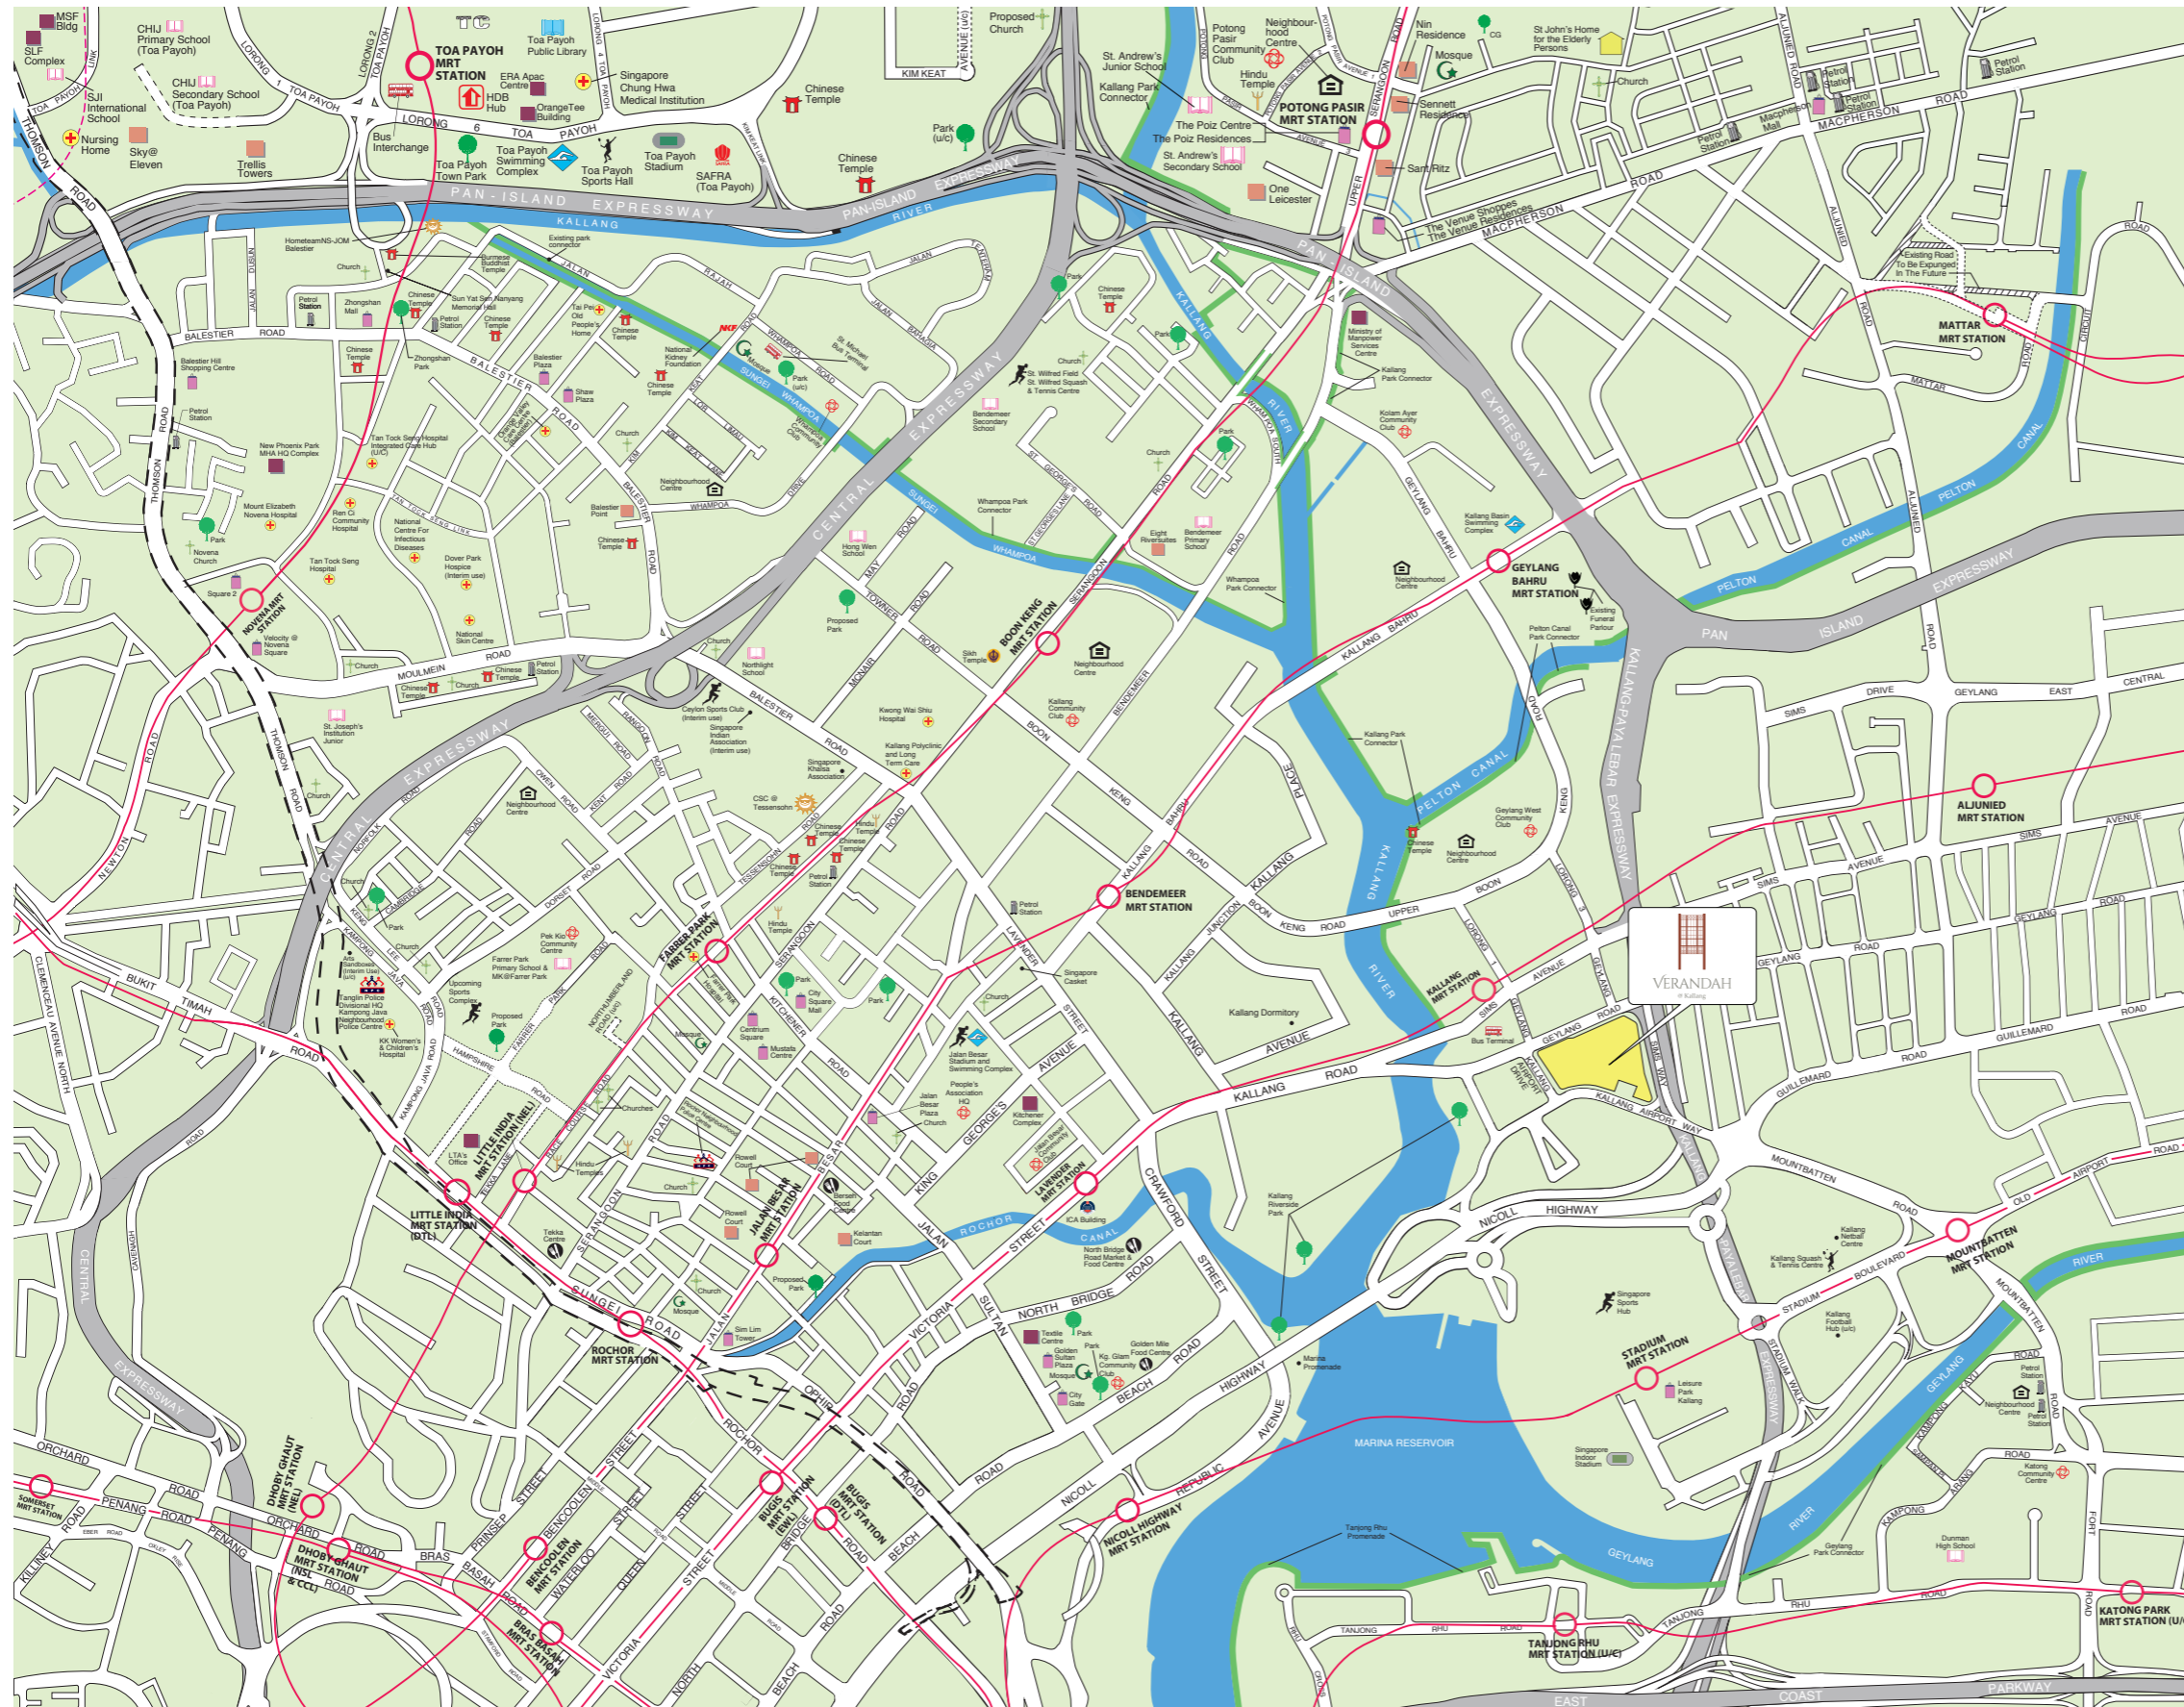

IMPORTANT NOTES

HDB precincts are planned to serve the evolving needs of the community. There are spaces catered for future inclusion of amenities/ facilities (such as preschools, eldercare facilities, education centres, residents' network centres, day activity centres, etc), commercial facilities (such as shops and eating houses), mechanical and electrical rooms, and such other facilities depending on the prevailing needs. These spaces could be in the void decks, common property, car parks, or stand-alone community buildings.

In addition, housing projects may be located near roads, railways, airbases, construction sites, and land used for non-residential purposes. Hence, residents may experience higher noise levels. We have provided information on the surrounding land use, proposed facilities, and their locations in the maps and plans of individual projects, where feasible. All developments and facilities shown (including but not limited to their locations, form, massing and/or building heights) are indicative only. The information provided is based on the current planning intent of the relevant authorities and is subject to change from time to time.
